Subject: Talking Points, Re: Latest Version of FR Notice
Hello,

Below are a set of talking points to use for your heads up discussions on the extension of the Pavillion comment period.

Mary

- On Friday, EPA expects to publish a notice extending the public comment period for the Agency's draft research report on the investigation of ground water contamination near Pavillion, Wyoming.
- The comment period will be extended for 8 months to September 30, 2013.
- EPA and USGS recently released the results of further sampling of the Pavillion deep monitoring wells. These new data have spurred questions about about the latest round of sampling as well as the procedures used for earlier monitoring phases.
- The extension provides an opportunity for EPA to add additional information to the docket which addresses these questions and to meet with stakeholders to gain a better understanding of the issues that have been raised.
- EPA will be posting additional technical information including:
 - Further details on how the study was conducted,
 - Recent information from Phase V sampling, and
 - Responses to issues that have been commonly raised by stakeholders.
- EPA is actively reviewing all of its Pavillion data with an open mind and, in light of the

newly posted information, further stakeholder inputs, and public comment, will examine a number of options going forward.

Thanks Mary.

With the notice hopefully appearing on Friday, we need to be providing heads-up to the key players. I would suggest making the following contacts in the next two-three days:

1. Jim Martin -- could you contact Encana and the tribes?
2. Sarah -- could you contact Governor Mead's office? (Sarah will also be arranging a call for Friday to discuss the State monitoring plan with the governor's office).
3. I'll contact industry (I actually received a call from API this morning and told them about the extension) and call Liz Klein at DOI to make sure our bases are covered with USGS.

Jim O'Hara -- can OEA work with ORD to develop communications materials for a Friday announcement?

I would also suggest (as discussed on Friday) that Lek and Jim work together on internal communications within ORD and R8.

Anything I've left out?

Hello Fred,

Bob S and Jim O'hara are fine with this version going to the FR today.

Thanks
Mary
